

**Third International Conference on Frontiers in Molecular Life Science
Poster Communication Sessions**

Poster Session 02 - 07th April 2022 (17.00 h- 18.00 h)

Presentation	Title	Presenting Author
PP 14	Effect of Exobasidium vexans infection in tea (Camellia sinensis) on expression of flavonoid biosynthetic enzymes and biosynthesis of flavonoids	Priyankan Sellachchamy
PP 15	Comparison of rat immune responses to two pathogenic Leptospira serovars prevalent in Sri Lanka	Dakshika Gangani
PP 16	Effect of aqueous extracts of cinnamon bark on hyperglycemia in diabetes induced Wistar rat models	Dilmini Wijenayaka
PP 17	Protein-ligand site-specific docking for Plasmeprin-II malaria receptor and identification of ligands and their binding sites	Fabiola Fernando
PP 18	Protein-ligand docking for the identification of therapeutic ligands against the Nipah virus attachment glycoprotein using Autodock	Tharudini Ekneligoda
PP 19	Scientific investigation on Sri Lankan poly herbal drug "Neelagiri Padamana" for its antioxidant activity, polyphenol content, and GC-MS analysis of ethanol extracts	Nishan Liyanawahunge
PP 20	A molecular docking study revealed natural benzophenones and xanthenes from Garcinia zeylanica as Wnt and Hedgehog pathway inhibitors in breast cancer stem cells	Umapriyatharshini Rajagopalan
PP 21	Effect of Munronia pinnata on functional changes and interaction of DENV-3 and endothelial cells	Pierre Celestin Munezero
PP 22	Phytochemicals Coated Silver Nanoparticles as Potential Vehicles for the Delivery of Plant Natural Products	Pabasara Kalansuriya
PP 23	Screening of Hibiscus flowers for antioxidant, antibacterial, and antifungal activities	RMK Rajapaksha
