

**Third International Conference on Frontiers in Molecular Life Science
Oral Communication Sessions**

Session 02- Immunopathogenesis and immunodiagnostics - 06th April 2022

| Presentation and Time | | Title | Presenting Author |
|------------------------------|---------------|--|--------------------------|
| OP01 | 13.45h-14.00h | Melatonin and Serotonin activity among long-term, skilled meditators | James Thambyrajah |
| OP 02 | 14.00h-14.15h | Comparison of immunoreactive proteins profile of pathogenic and non-pathogenic serovars of Leptospira | Kaushalya Anuradha |
| OP 03 | 14.15h-14.30h | Evaluation of SARS-CoV-2 Specific Antibodies in Sri Lankan Patients: A Preliminary Study Using an In-house ELISA | Bhagya Deepachandi |
| OP 28 | 14.30h-14.45h | Identification of Potential Therapeutic Agents for COVID-19 through Site-Specific Protein-Ligand Docking | Nisshaptha Nadarajah |
| OP 29 | 14.45h-15.00h | Protein-ligand docking study to identify ligand binding sites against Hepatitis B protein receptor. | FRA Rizwan |
